

EUROPEAN INFECTIOUS DISEASE

MEDIA PACK

Supporting physicians,
clinicians and related healthcare
professionals in continuously
developing their knowledge,
effectiveness and productivity

www.touchbriefings.com

Overview

European Infectious Disease is a peer-reviewed bi-annual journal comprising review articles, case reports, practice guides, theoretical discussions and original research. It features balanced and comprehensive articles written by leading authorities addressing the most important and salient developments in the field of infectious disease.

European Infectious Disease endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity.

Issues per annum: 2 (Spring and Autumn)

Editorial Expertise

European Infectious Disease is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of infectious disease disciplines.
- Invited contributors are recognised authorities from their respective fields.
- Peer review conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Editorial Content

European Infectious Disease comprises articles written by senior infectious disease physicians. The editorial policy has been designed to provide leading commentary and encourage discussion among this healthcare peer group.

Key editorial areas include:

- HIV and AIDS
- Viral infections
- Bacterial infections
- Parasitic infections
- Fungal infections
- Infection control and prevention
