

EUROPEAN UROLOGICAL REVIEW

MEDIA PACK

Supporting physicians,
clinicians and related healthcare
professionals in continuously
developing their knowledge,
effectiveness and productivity

Overview

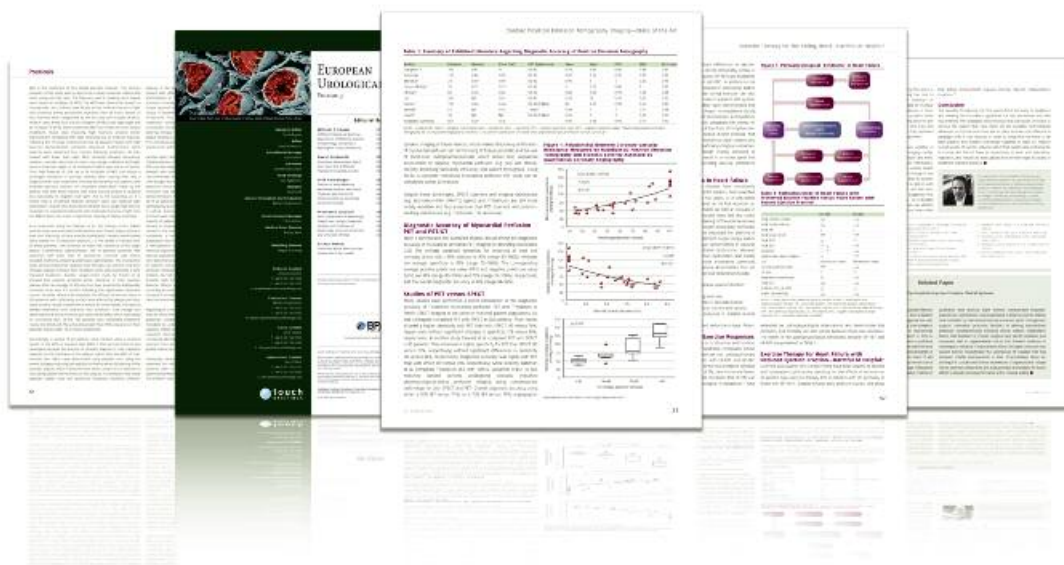

European Urological Review is a peer-reviewed bi-annual journal comprising review articles, case reports, practice guides, theoretical discussions and original research. It features balanced and comprehensive articles written by leading authorities addressing the most important and salient developments in the urological field.

European Urological Review endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.

Editorial Expertise

European Urological Review is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of urological disciplines.
- Invited contributors are recognised authorities from their respective fields.
- Peer review conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.
